

GULF BROADCAST TECHNOLOGY

AUDIO-VIDEO & BROADCAST TECHNOLOGIES

COMPANY PROFILE

WHO WE ARE

GBT is a Qatari based company created in 2006. The new management is focusing on client services and support strategy mostly in the field of Audio and Video technologies for broadcast and corporate. Our development is based on two axes: In house resources on one hand and abroad strategic partners on the other hand. We provide to our customers in Qatar and Middle East a real local technical support. With a strong quality control, we aim to build long lasting relationship with our customers.

IN-HOUSE RESOURCES

Our offices are conveniently located in the center of Doha nearby TV roundabout. They included an Engineering office room, a storage area and a workshop with cabling and test unit. Our team is actually allocated as follow:

- 2 Broadcast Engineers
- 3 Audio Video Technicians
- 4 Broadcast Freelancers
- 2 Electro Mechanical Technicians
- 2 Assistants

Part of our team is involved directly in customer's facilities for support and maintenance. Another part of the team is dedicated to spot contracts as installation, cabling, commissioning, training and support. A support hotline located in Doha is available for our customers.

ABROAD PARTNERS

We are acting with Audio Video Manufacturers and System Integrators as local support to cover the needs in project supervision and project implementation. Moreover we are handling the local support and the 1st level maintenance for their projects and/or products. The second activity with partners is the project management involving experts from the Audio Video field for transmissions, Radio & TV's and the whole range of corporate Audio Video services.

OUR SERVICES

- AUDIO VISUAL & BROADCAST INFRASTRUCTURE DESIGN
- ENGINEERING AND IMPLEMENTATION
- CONSULTING SERVICES FOR MEDIA & CORPORATE
- SUPPORT CONTRACTS AND MAINTENANCE SERVICES
- AUDIOVISUAL & BROADCAST PROJECT MANAGEMENT

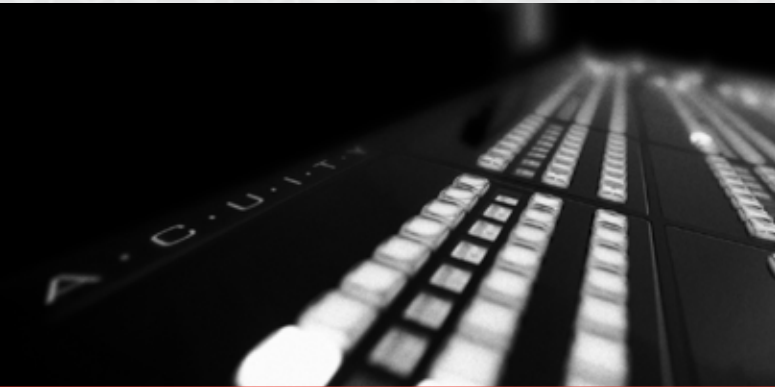

ROSS VIDEO

Founded in 1974 in Canada, Ross Video is now a global business with offices across four continents and a client base that includes the biggest names in broadcasting. Ross Video is passionate about live production; we design and manufacture a range of proven solutions that power exceptional live video productions seen by billions of viewers every day. Ross Video's goal is to make it easy for customers to create compelling news, weather and sports broadcasts, engaging material for sports stadium screens, legislative assemblies, entertainment shows and rock concerts.

We also provide outstanding, free-for-life telephone support staffed by technical experts 24 hours a day, 365 days a year—even for products bought on eBay. Ross employees are authorized to rent helicopters when necessary.
